

Do all working people stop being poor?

- 1) It depends on the conditions of the job**
- 2) Yes, as they start earning money
- 3) It depends on the family's savings

What is one of the main targets of the SDG 1?

- 1) To eradicate extreme poverty in the world**
- 2) To fight climate change
- 3) To build more schools

Where is the highest compliance with the Global Goal 1 registered so far?

- 1) In the EU**
- 2) In the USA
- 3) In China

What tendency had the global extreme poverty rate been showing in the last 20 years?

- 1) Decreased**
- 2) Stagnated
- 3) Risen

What is the average number of people per household in developing countries?

- 1) 6-9 persons**
- 2) 4-6 persons
- 3) 2-4 persons

How many children worldwide lived in poverty in 2019?

- 1) 356 million**
- 2) 56 million
- 3) 6 million

How many children were living in poverty in the world's richest countries in 2019?

- 1) 1 in 5**
- 2) 3 in 5
- 3) None

How many women worldwide are illiterate due to poverty?

- 1) 584 million**
- 2) 84 million
- 3) None

Which group is more vulnerable to sexual exploitation, including trafficking, due to poverty?

- 1) Women and girls**
- 2) Men
- 3) Men and women

How many percent of the global poor live in economies affected by fragility, conflict and violence?

- 1) More than 40%
- 2) Less than 20%
- 3) None

Because of climate change, conflicts and food insecurity, extreme poverty is a big challenge - especially in:

- 1) Sub-Saharan Africa
- 2) Europe
- 3) South America

By which year will there hopefully no longer be hunger in the world according to The Sustainable Development Goals?

- 1) 2030
- 2) 2040
- 3) 2050

Goal 1.2 targets that by 2030 the part of men, women and children that live in poverty ....

- 1) Be halved
- 2) Should not increase further
- 3) Be zero

Is it mostly men or mostly women who live in extreme poverty?

- 1) Mostly women
- 2) Mostly men
- 3) It depends on the continent

The UN's Human Development Index (HDI) measures a country's level of development. Which country was number 1 in 2019?

- 1) Norway
- 2) Mexico
- 3) Japan

What does "microfinance" mean?

- 1) Small loans for low-income individuals
- 2) Another word for poverty
- 3) Low prices on goods and services

What are the "basic needs" of a human?

- 1) The physiological needs such as sleep, food, water, and air
- 2) The social needs such as love, appreciation, and company
- 3) Someone's desire to be seen and heard

Which African country was the most developed country in 2020?

- 1) Seychelles
- 2) Morocco
- 3) Niger

What percentage of the people in the EU-27 were at risk of poverty or social exclusion in 2019?

- 1) 21%
- 2) 1%
- 3) 11%

Which country in Europe was the poorest in 2021?

- 1) Moldova (Republic of)
- 2) Romania
- 3) Bulgaria

Which country had the highest level of economic inequality in 2020?

- 1) Lesotho
- 2) USA
- 3) Norway

A person living in "extreme poverty", lives on how many US dollars a day?

- 1) Under 1.90 USD a day
- 2) Under 5.25 USD a day
- 3) Under 10.25 USD a day

In 1990, 36% of the world's population lived in extreme poverty. What was the percentage in 2015?

- 1) 10%
- 2) 20%
- 3) 30%

How many people were pushed into extreme poverty in 2020 because of COVID-19?

- 1) 71 million people or more
- 2) 22 million people or more
- 3) 10 million people or more

How much of the world's wealth is owned by the richest 1% of the world's population?

- 1) More than 50 %
- 2) About 10 %
- 3) About 30 %

Niger is one of the world's poorest countries. How much of its population lives under the poverty line of 1.90 US dollars per day?

- 1) A little less than a half
- 2) About a fourth
- 3) None

Since 1990, the number of people living in poverty has fallen worldwide. In which part of the world have we seen poverty dropping the most?

- 1) Asia
- 2) Africa
- 3) South America

UNICEF is the UN's Children's Fund. They ship out emergency supplies and rations to all over the world. Where is UNICEF's international warehouse located?

**1) Copenhagen**

2) New York

3) Tokyo

Since 2014, hunger in the world has:

- 1) Increased
- 2) Decreased
- 3) Stagnated

How many people globally are estimated to suffer from hunger?

- 1) About 690 million
- 2) About 69 million
- 3) No one - nowadays

What is the main global health risk?

- 1) Hunger and malnutrition
- 2) HIV
- 3) Malaria

What are the main objectives of the World Food Programme (WFP)?

- 1) Provide food assistance & control food emergencies
- 2) Improve food quality
- 3) End food waste in the EU

What is the name of the UN organization that leads international efforts to defeat hunger?

- 1) FAO
- 2) UNICEF
- 3) UNESCO

Globally, how many percent of fresh water is used for agriculture?

- 1) 70%
- 2) 30%
- 3) 50%

What is the name of the United Nations specialized agency associated with Goal 2?

- 1) FAO
- 2) UNICEF
- 3) IMF

Where is the world's most diverse collection of food crop seeds being kept?

- 1) Norway
- 2) Canada
- 3) Russia

What are, among others, the typical primary food products for UNICEF's RUTF (Ready-to-use therapeutic food)?

- 1) peanuts, oil, milk powder
- 2) chicken, rice, vegetables
- 3) potato, fat, beef

How much food is wasted in Sub-Saharan Africa by consumers?

- 1) 5%
- 2) 10%
- 3) 15%

At what stage does most food loss occur?

- 1) Harvest, storage and transportation
- 2) Food processing
- 3) Consumption

What sector is the primary emitter of ammonia gas?

- 1) Agricultural sector
- 2) Energy sector
- 3) Manufacturing

How much of the Earth's land is used for agricultural production?

- 1) 11%
- 2) 1%
- 3) 21%

How much of the produced food worldwide is wasted?

- 1) one third
- 2) a half
- 3) one quarter

What percentage of women make up the labour force in the agricultural sector?

- 1) 43%
- 2) 23%
- 3) 63%

How many litres of water does it take to produce 1 kg of avocados?

- 1) 283 litres
- 2) 83 litres
- 3) 183 litres

What proportion of produced fruit & vegetables is wasted each year globally?

- 1) one half
- 2) one third
- 3) one quarter

New land can be created from oceans, seas, riverbeds or lakebeds. What is this process called?

- 1) Land reclamation
- 2) Land grabbing
- 3) Land economy

How much water is needed to produce 1kg of cotton?

- 1) 10,000 litres
- 2) 5,000 litres
- 3) 20,000 litres

If recent trends continue, by 2030 the number of people affected by hunger will ...

- 1) Surpass 840 million
- 2) Remain the same
- 3) Decrease to 500 million

What does it mean to be "undernourished"?

- 1) Lack of vitamins, proteins, and fibers you need on a daily basis
- 2) When you do not eat enough meat
- 3) When you do not get enough calories

Which type of country has never experienced famine?

- 1) Countries with a functioning modern democracy
- 2) Countries with a dictatorship
- 3) Countries with a monarchy

Where in the world do most people live in hunger?

- 1) Sub-Saharan Africa
- 2) South America
- 3) Asia

How many litres of water is needed to produce one person's daily intake of food?

- 1) At least 1,500 litres
- 2) At least 500 litres
- 3) At least 150 litres

How many people do not eat enough food to be kept healthy?

- 1) 900 million people worldwide
- 2) 9 million people worldwide
- 3) None

How much of the world's annual food production ends up being wasted?

- 1) About a third
- 2) About a fifth
- 3) Very little

What proportion of deaths among children under five is caused by hunger?

- 1) Almost a half
- 2) None
- 3) About a fourth

What percentage of farmers in developing countries are women?

- 1) 50%
- 2) 80%
- 3) 10%

In which type of industry does most of the world's population work?

- 1) Agriculture
- 2) Tourism
- 3) Fashion

What percentage of our global animal-based protein consumption is derived from fish?

- 1) 17%
- 2) 7%
- 3) 37%

In 2015, the countries of the world agreed on 17 goals to achieve a better and more sustainable future for all. What goal was set in the fight against hunger?

- 1) Zero hunger
- 2) Half as much hunger
- 3) To continue fighting hunger at the rate we do now

How many kilos of grain is required to produce one kilo of beef?

- 1) 7 kg
- 2) 1 kg
- 3) 3 kg

Between 2000 and 2015, by how many years has the lifespan increased?

- 1) 7 years
- 2) 2 years
- 3) 5 years**

According to the World Health Organization (WHO), what percentage of the world population breathe air that is not healthy enough?

- 1) 30%
- 2) 70%
- 3) 90%**

What is a big consequence of air pollution?

- 1) It lowers the level of the Indian ocean
- 2) It prevents birds from migrating
- 3) It decreases human life expectancy**

Since 2000, vaccination programs in the world...

- 1) ...have contained a meningitis pandemic
- 2) ...haven't changed anything
- 3) ...have decreased 80% of measles cases**

In which SDG has the European Union made the most progress?

- 1) SDG 12
- 2) SDG 1
- 3) SDG 3**

Where does under-five mortality remain very high?

- 1) Latin America
- 2) Europe
- 3) Sub-Saharan Africa and South Asia**

How much has malaria mortality been reduced since 2000?

- 1) It has not been reduced
- 2) It has been reduced to one fifth
- 3) It has been halved**

Of the following diseases, which one does goal 3 aim to end by 2030?

- 1) Chickenpox
- 2) Cancer
- 3) Tuberculosis epidemic**

How much was the annual global average alcohol consumption in 2016 among people above 15 years old?

- 1) 16.5 litres per person
- 2) 10.2 litres per person
- 3) 6.4 litres per person**

**3** GOOD HEALTH AND WELL-BEING

Where was life expectancy the highest in 2020, with 85.29 years?

- 1) Australia
- 2) France
- 3) Hong Kong**

**3** GOOD HEALTH AND WELL-BEING

What is the most common health issue in the world?

- 1) Suicide
- 2) Cancer
- 3) Heart disease**

**3** GOOD HEALTH AND WELL-BEING

How many child mortalities under the age of 5 occurred globally in 2019?

- 1) 12.3 million
- 2) 10.3 million
- 3) 5.3 million**

**3** GOOD HEALTH AND WELL-BEING

How many of abortions worldwide are unsafe?

- 1) 42 million
- 2) 12 million
- 3) 22 million**

**3** GOOD HEALTH AND WELL-BEING

How many people by the age of 45 and older are lonely globally?

- 1) 1 out of 4
- 2) 2 out of 3
- 3) 1 out of 3**

**3** GOOD HEALTH AND WELL-BEING

What percentage of women have experienced physical and/or sexual violence by their intimate partner globally?

- 1) 10%
- 2) 80%
- 3) 30%**

**3** GOOD HEALTH AND WELL-BEING

How many people were tested positive for HIV in 2019?

- 1) 500
- 2) 1 million
- 3) 1.7 million**

**3** GOOD HEALTH AND WELL-BEING

Globally, there are more people who are...

- 1) Neither, there is about an equal amount of each
- 2) Underweight
- 3) Overweight**

**3** GOOD HEALTH AND WELL-BEING

What are "waterborne diseases"?

- 1) Diseases transferred by animals living in water
- 2) Diseases that cause water to build up in the body
- 3) Diseases that are transferred through polluted and unclean water**

What is the average global life expectancy?

- 1) 92 years
- 2) 52 years
- 3) 72 years**

What is the most common cause of death globally?

- 1) Traffic accidents
- 2) Malaria
- 3) Cardiovascular disease**

What is a pandemic?

- 1) The Latin word for a liver infection
- 2) A lifestyle disease
- 3) An infectious disease spread over a large geographical area**

How many children are born on average per woman in China?

- 1) 2.2 children
- 2) 0.9 children
- 3) 1.6 children**

Which of the following kills the most people every year?

- 1) HIV/Aids
- 2) Malaria
- 3) Air pollution**

Which of these diseases is waterborne and can be caused by drinking polluted or unclean water?

- 1) Tuberculosis
- 2) HIV
- 3) Liver infection**

Which insect spreads malaria?

- 1) Ordinary fly
- 2) Tick
- 3) Mosquito**

How many children are born every minute globally?

- 1) 30
- 2) 130
- 3) 230**

How many lives are saved every year thanks to vaccines?

- 1) About 5 million
- 2) About a million
- 3) 2 to 3 million**

How many lives were saved between 2000 and 2015 due to the measles vaccine?

- 1) Barely any
- 2) About 1 million
- 3) About 17 million**

How many minutes of activity should a child aged 5-17 get every day?

- 1) 15 minutes
- 2) About 30 minutes to an hour
- 3) At least 60 minutes**

How much of the human body is water?

- 1) About 25 percent
- 2) About 75 percent
- 3) About 60 percent**

How many children under five die from undernutrition worldwide?

- 1) About a third
- 2) About a tenth
- 3) About a half**

At what age is prevention of undernutrition most critical in a child's life?

- 1) 5-10 years of age
- 2) 2-5 years of age
- 3) 0-2 years of age**

In 2016, 2.4 children were born globally per woman. How many children in average did women give birth to in Rwanda in 2016?

- 1) 4.9
- 2) 3.9
- 3) 5.9**

In which year was malaria eradicated in Europe?

- 1) 1875
- 2) 1475
- 3) 1975**

In how many countries do women have the right to get paid maternity leave?

- 1) 37 countries
- 2) 121 countries
- 3) 185 countries**

According to the UN, how much water does one human need to cover their basic needs during a single day (drinking, hygiene, doing dishes, and other things)?

- 1) 5-10 litres
- 2) 1-5 litres
- 3) 50-100 litres**

According to UNICEF, what is the second-most frequent disease-related cause of death among children under five?

- 1) Measles
- 2) Influenza
- 3) Diarrhea**

Proteins are important for your body, as they help it grow and repair itself. Which of the following food contains the greatest amount of protein?

- 1) Spinach
- 2) Rice
- 3) Peanuts**

- 1)
- 2)
- 3)**

- 1)
- 2)

- 2)
- 3)**

- 1)
- 2)
- 3)**

Globally in 2016, how many children aged 6-11 years were not attending school?

- 1) Over 500 million
- 2) None
- 3) Over 63 million**

It is harder for girls and women than men to have access to education.

- 1) FALSE
- 2) It is not a question of gender
- 3) TRUE**

Approximately, how many children were still out of school in 2018 worldwide?

- 1) 500 million
- 2) There were no children out of school
- 3) 260 million**

Which UN agency is mainly responsible for ensuring compliance with SDG 4?

- 1) FAO
- 2) ILO
- 3) UNESCO**

Where do 50% of the out-of-school children of primary school age live?

- 1) In rural areas
- 2) In developing countries
- 3) In conflict-affected areas**

One additional year of school can increase a woman's earnings by....

- 1) up to 10%
- 2) up to 30%
- 3) up to 20%**

Which country had in 2018 the highest rate of High School graduates between the age of 25-34?

- 1) New Zealand
- 2) USA
- 3) South Korea**

Which country has the highest percentage of early school dropouts in the EU?

- 1) Croatia
- 2) Malta
- 3) Spain**

How many children around the world do not have access to education?

- 1) 464 million
- 2) 64 million
- 3) 264 million**

Which country in the world has the longest school year?

- 1) United Kingdom
- 2) China
- 3) Japan**

Which of the following countries does not offer higher education for free?

- 1) Syria
- 2) Sweden
- 3) United Kingdom**

Which country has the lowest number of primary school days per year?

- 1) Finland
- 2) Sweden
- 3) Russia**

Which of the following continents has the highest literacy rate?

- 1) Oceania
- 2) Latin America
- 3) Africa**

Which of the following countries spends the most on education, taking into account the total expenditure percentage of the GDP?

- 1) Denmark
- 2) USA
- 3) Cuba**

Global Goal 4 has 10 "targets". Target 4.7 is about...

- 1) Gender equality in schools
- 2) Free education
- 3) The need for education specifically about the 17 Global Goals**

Globally, illiteracy has long been more common among women than men. Is this still the case?

- 1) No, there are more men who are illiterate today in comparison to women
- 2) Today, the difference has evened out
- 3) Yes, because fewer women than men go to school**

Globally, do more women take an advanced education compared to men?

- 1) No, there are more men taking an advanced education
- 2) No, it is about the same for both genders
- 3) Yes, there are more women taking an advanced education**

What is the greatest global challenge in relation to education?

- 1) Ensuring access
- 2) Ensuring student demand
- 3) Ensuring quality**

Article 28 of the Child Convention stipulates that every child has the right to...

- 1) ...eat candy at least once a week
- 2) ...get pocket money
- 3) ... go to school and get an education**

What does it mean to be "illiterate"?

- 1) That one is unable to distinguish the letters in the alphabet
- 2) That one lacks proper schooling
- 3) That one is unable to read and write**

Which of the following African countries had the smallest illiterate proportion of their total population in 2016?

- 1) Nigeria**
- 2) South Africa
- 3) Seychelles**

Which of the following languages is the official language of most African countries?

- 1) Portuguese**
- 2) English
- 3) French**

The number of students entering primary school...

- 1) ...is stagnating
- 2) ...is falling
- 3) ...has never been higher than before**

Which European country has the highest illiteracy rate?

- 1) Turkey**
- 2) Romania
- 3) Malta**

Which country has the greatest number of official languages?

- 1) South Africa**
- 2) China
- 3) India**

What percentage of Chad's adult population were literate in 2016?

- 1) 52%
- 2) 92%
- 3) 22%**

Where in the world live the most people who cannot read and write?

- 1) Eastern Europe and South America**
- 2) North and South America
- 3) Africa and South Asia**

How many people in the developing world have a cell phone?

- 1) 5 out of 10
- 2) 2 out of 10
- 3) 8 out of 10**

How many schools in the developing world have access to computers and internet?

- 1) 1 out of 10
- 2) 9 out of 10
- 3) 6 out of 10**

How many years does compulsory education last in most European Union countries?

- 1) 8-9 years
- 2) 7-8 years
- 3) 9-10 years**

How many years of compulsory education is there in India?

- 1) 5 years
- 2) There is no requirement
- 3) 8 years**

Globally, what percentage of children that are old enough for primary school actually attend primary school?

- 1) 75%
- 2) 60%
- 3) 90%**

Globally, what percentage of young people, old enough for secondary school, actually attend a secondary school?

- 1) About 86%
- 2) About 36%
- 3) About 66%**

Globally, what percentage of children aged 6-11 do not attend school?

- 1) 29%
- 2) 19%
- 3) 9%**

Globally, what percentage of adults can read?

- 1) About 96 %
- 2) About 66 %
- 3) About 86 %**

What percentage of people older than 15 years are literate in developing countries?

- 1) 87%
- 2) 37%
- 3) 63%**

What percentage of students in developing countries end up dropping out before completing primary school?

- 1) 27%
- 2) 67%
- 3) 47%**

In 2019, how many of the 18-24 year olds in the EU were expected to be early leavers?

- 1) 20%
- 2) 6%
- 3) 10%**

What percentage of women in Afghanistan are illiterate?

- 1) About 56%
- 2) About 26%
- 3) About 76%**

Why is it important for a country to have a well-educated population?

- 1) People can get better jobs and earn more money
- 2) It is not important
- 3) A well-educated population creates opportunities for economic growth in society**

In 1998, only 17.3% of all girls in Bhutan started a secondary education. What is the number today?

- 1) About 38%
- 2) About 18%
- 3) About 68%**

In which region is the number of students studying in higher education growing the fastest?

- 1) South America
- 2) Middle East and North Africa
- 3) East Asia**

In how many of the 193 countries in the world is secondary education free?

- 1) 42
- 2) 22
- 3) 122**

In how many of the 193 countries in the world is higher education (tertiary education) free?

- 1) 21
- 2) 41
- 3) 81**

In how many of the 193 countries in the world is basic education (primary education) free?

- 1) 47
- 2) 27
- 3) 187**

In 1950, two out of three people in the world were illiterate. How are we doing today?

- 1) Slightly better. We have reduced global illiteracy with 5%
- 2) It has gotten worse. Now, every second person is illiterate
- 3) Much better. Now, only every seventh person is illiterate**

All humans have a right to...

- 1) Be in a class of their choice
- 2) Skip school once a week
- 3) Receive free basic education**

On which continent do most people who are not in school live?

- 1) Asia**
- 2) South America
- 3) Africa**

The written language dates back to 3500 BC. In which part of the world did the first written language develop?

- 1) North America
- 2) Southern Europe
- 3) Middle East**

How many countries still penalize homosexuality?

- 1) 42
- 2) 12
- 3) 72**

Which country was the first country to withdraw transidentity from the mental illness list?

- 1) Canada
- 2) Belgium
- 3) Denmark**

Which of the following European countries was the last to allow women to vote?

- 1) Spain
- 2) Poland
- 3) Liechtenstein**

What was the percentage of female European parliamentarians in 2019?

- 1) 12%
- 2) 80%
- 3) 36%**

Which three countries are best at gender equality?

- 1) Germany, Finland and France
- 2) USA, Japan and China
- 3) Iceland, Norway and Sweden**

What is one of the most important keys to create more development in the world's poorest countries?

- 1) New machines
- 2) Rain
- 3) Women**

Which of the following is one of Goal 5 targets?

- 1) Reduce climate change
- 2) Maintain diversity in food production
- 3) Eliminate forced marriages**

Which country was the no. 1 on the Gender Gap Equality Index rankings in 2020?

- 1) Finland
- 2) Norway
- 3) Iceland**

Where did the Women Rights Movement begin in 1848?

- 1) United Kingdom
- 2) France
- 3) USA**

According to UNDP, how many countries lack laws to protect women against domestic violence?

- 1) 19
- 2) 9
- 3) 49**

What is the best result of gender equality so far?

- 1) There are no results
- 2) Higher income per households
- 3) Fewer girls are forced into early marriages**

In 2018, which country still did not allow women to drive?

- 1) Iran**
- 2) Afghanistan
- 3) Saudi Arabia**

Which country has the highest percentage of female genital mutilation cases?

- 1) Sudan
- 2) Egypt
- 3) Somalia**

Child marriage is still a common practice nowadays in one of the following countries. Which one?

- 1) USA
- 2) India
- 3) Yemen**

In one of the following countries, getting married to rape victims can exonerate the rapist so that they avoid punishment. Which one?

- 1) United Kingdom**
- 2) Sweden
- 3) Jordan**

What percentage of the global workforce are women?

- 1) 19%
- 2) 29%
- 3) 39%**

Which countries spend the most on research and development when measured as a percentage of GDP?

- 1) Switzerland and Japan
- 2) USA and China
- 3) South Korea and Israel**

What percentage of the world's researchers are women?

- 1) 80%
- 2) 42%
- 3) 30%**

In how many countries has there been accomplished full gender equality both economically, politically, and socially?

- 1) Only three countries
- 2) In most European countries
- 3) Nowhere yet**

Globally, is there an equal number of women and men?

- 1) Yes, there is almost exactly the same number of women as men.
- 2) No, there are many more women than men, as men die at an earlier age
- 3) No, there are a few more men.**

Who was the first woman to be elected as the president of the European Parliament?

- 1) No woman has been elected as the president of the EU Parlament yet
- 2) Nicole Fontaine (France)
- 3) Simone Veil (France)**

Who was the first female Secretary General of the United Nations?

- 1) Madeleine Albright
- 2) Angela Merkel
- 3) As of 2020, the UN has not yet had a female secretary general**

Which two countries have the most women in governance?

- 1) Switzerland and Finland
- 2) Tanzania and Iran
- 3) Bolivia and Rwanda**

Which of these countries have the greatest proportion of women in their parliament (or lower house)?

- 1) Singapore
- 2) Canada
- 3) Rwanda**

Which one of the following countries was not in the global "top 10" regarding gender equality in 2019?

- 1) Finland
- 2) Sweden
- 3) Denmark**

In which of these countries did women first get the right to both vote and be candidates in elections?

- 1) USA
- 2) Switzerland
- 3) Finland**

Which country was the first to grant women the right to vote and which country was the last to do so (not counting the Vatican City)?

- 1) The USA was the first; Venezuela was the last
- 2) Denmark was the first; the Republic of Congo was the last
- 3) New Zealand was the first; Saudi**

In which year was the UN's Convention on the Elimination of all Forms of Discrimination Against Women (CEDAW) signed?

- 1) 2015
- 2) 1951
- 3) 1979**

What percentage of the world's women have at some point in their lives been the victim of sexual or physical violence?

- 1) 55%
- 2) 15%
- 3) 35%**

How many women around the world have experienced either sexual or physical violence?

- 1) 1 out of 10
- 2) 1 out of 8
- 3) More than 1 out of 3**

How many countries were led by women in 2018?

- 1) 14
- 2) 44
- 3) 24**

How many of women and girls in the EU experience harassment through texting, emails, and social media?

- 1) A third
- 2) A half
- 3) A tenth**

Which country was the first to allow women to vote in 1893?

- 1) USA
- 2) Sweden
- 3) New Zealand**

In 1960, the global average of children per woman was five. What was the average in 2020?

- 1) 3 children
- 2) 6 children
- 3) 2 children**

In 1976, 70% of the world's population could read. In 2020 the number was 86.3%. Have we seen the biggest drop in illiteracy among women or among men?

- 1) The drop has been equally great among both men and women
- 2) Among men
- 3) Among women**

Globally, how much does an average woman earn per year?

- 1) About 20,500 US dollars
- 2) About 15,000 US dollars
- 3) About 10,500 US dollars**

By reducing gender inequality, the number of people living in hunger would fall with...

- 1) 5-10 million
- 2) 1-5 million
- 3) 10-15 million**

In 2017, only one country had more women than men in its parliament. Which one?

- 1) Bulgaria
- 2) Finland
- 3) Rwanda**

In 2018, Ireland lifted its ban on abortion as the last European country to do so. How many of the world's countries maintain strict abortion laws?

- 1) 93
- 2) 13
- 3) 53**

In India, 62.8% of women are literate. What is this number among Indian men?

- 1) About 41%
- 2) About 61%
- 3) About 81%**

What is "Me Too"?

- 1) A human right that condemns sexual harassment
- 2) A Swedish law that tries to prevent sexual harassment
- 3) An online campaign to create awareness around sexual harassment**

- 1)
- 2)
- 3)**

- 1)

How many countries provide access to drinkable water for 100% of their population?

- 1) 35
- 2) 10
- 3) 140

Which is the most widely known disease when it comes to contaminated water?

- 1) Diarrhea
- 2) Schistomiasis
- 3) Typhoid

Of all water on the Earth - what is the percentage of fresh water?

- 1) about 3%
- 2) about 10.5%
- 3) about 20.5%

What is one of the main diseases caused by a lack of hygiene?

- 1) Diarrhoeal disease
- 2) Allergies
- 3) Urinary tract infection

Which country will soon recycle enough wastewater to meet 50% of its water needs?

- 1) Singapore
- 2) New Zealand
- 3) Norway

A lack of water resources to meet the human and ecological demand for water is called...

- 1) Water Stress
- 2) Water Fall
- 3) Water Drop

Worldwide, how many people did not have access to safe drinking water in 2019?

- 1) 780 million
- 2) 1 billion
- 3) Very few

Unsafe drinking water is a leading risk for...

- 1) Diarrhea
- 2) Diabetes
- 3) High blood pressure

What percentage of global freshwater flow comes from basins that cross national borders?

- 1) 60%
- 2) 40%
- 3) 20%

Which region has the highest death rates due to lack of safe drinking water?

- 1) Sub-Saharan Africa
- 2) Middle East
- 3) Latin America

Globally, how many percent of schools have no toilets at all?

- 1) 23%
- 2) 13%
- 3) 5%

How long do you think the average Malawi woman spends on getting water every day?

- 1) 54 minutes
- 2) 14 minutes
- 3) 6 minutes

On which source of water does two billion people primarily rely on?

- 1) Groundwater
- 2) Rainwater
- 3) Desalinated ocean water

The UN's Food and Agricultural Organization (FAO) has estimated that many developing countries will be lacking water by 2030. How many countries?

- 1) Every fifth developing country
- 2) Every third developing country
- 3) All developing countries

Unclean water can be made potable using chlorine tablets or by...

- 1) Boiling it
- 2) Filtering through an ordinary coffee filter
- 3) Adding calcite tablets

Unclean water can be made potable by boiling it or by...

- 1) Adding chlorine tablets
- 2) Adding salt
- 3) Filter through an ordinary coffee filter

By 2025, how many of the world's population will be living in water-stressed areas?

- 1) Half of the world's population
- 2) All of the world's population
- 3) One third of the world's population

The absence of clean water in ordinary homes is often due to...

- 1) Poorly functioning state institutions
- 2) Lack of water due to droughts
- 3) Pollution

**6** CLEAN WATER AND SANITATION

Groundwater is one of the few natural resources that can be found almost all over the planet. How much of the world's total freshwater supply is made up by groundwater?

- 1) 30%
- 2) 40%
- 3) 50%

**6** CLEAN WATER AND SANITATION

What is used to clean the drinking water from dangerous bacteria and harmful organisms in multiple Asian countries?

- 1) Sari (a type of cloth used for robes in Asia)
- 2) Mosquito nets
- 3) Clay

**6** CLEAN WATER AND SANITATION

What is the primary reason that water projects in developing countries fail?

- 1) A lack of maintenance
- 2) Corruption in the country
- 3) Lack of knowledge

**6** CLEAN WATER AND SANITATION

What is one of the biggest threats to the quality and cleanliness of the European groundwater?

- 1) Domestic pollution
- 2) Salts from the ocean water making the groundwater too saline
- 3) Population growth

**6** CLEAN WATER AND SANITATION

What is the benefit of using groundwater as a source of drinking water, rather than rain or ocean water?

- 1) Groundwater has been filtered through several layers
- 2) Groundwater is easier to extract and use, because it is right there in the ground
- 3) Groundwater contains vitamins from the earth

**6** CLEAN WATER AND SANITATION

Who would benefit the most from the construction of water treatment plants in smaller communities in developing countries?

- 1) Girls and women
- 2) Children
- 3) It would benefit everyone equally

**6** CLEAN WATER AND SANITATION

Which of these options would be the most effective way to save water?

- 1) Refraining from eating a hamburger
- 2) Taking short showers
- 3) Drinking something else instead of water

**6** CLEAN WATER AND SANITATION

Which country supplies the most freshwater in the world?

- 1) Brazil
- 2) Finland
- 3) USA

**6** CLEAN WATER AND SANITATION

Which of the following statements is correct?

- 1) There are more people with a cell phone than a toilet
- 2) There are more people with a toilet than a cell phone
- 3) Everyone who has access to a cell phone also has access to a toilet

How many litres of water does the average European consume every day?

- 1) About 200 litres
- 2) About 150 litres
- 3) About 50 litres

How many litres of water does the average US family consume every day?

- 1) About 1,100 litres
- 2) About 900 litres
- 3) About 500 litres

How many people die every year because of unclean or polluted water and/or unsanitary conditions?

- 1) Over 800,000
- 2) Over 8 million
- 3) None

How much of the Earth's water can be used for drinking water?

- 1) 10%
- 2) 3%
- 3) 30%

By how much it is expected that global water consumption will rise by 2050?

- 1) 55%
- 2) 40%
- 3) 25%

How much of the world's wastewater ends up going directly into rivers and oceans?

- 1) 80%
- 2) 10%
- 3) 50%

What proportion of the world's population does not have access to clean water?

- 1) More than a sixth
- 2) More than a half
- 3) Everyone has access to clean water

What percentage of the world's drinking water is produced by desalination?

- 1) 1%
- 2) 5%
- 3) 10%

In 2013, what percentage of the world's population had either water pipes or water tanks with a pump in their homes?

- 1) Almost 85%
- 2) Almost 35%
- 3) Almost 50%

What percentage of the world's total water reserves is saltwater?

- 1) 97%
- 2) 52%
- 3) 10%

What percentage of the world's population still do not have access to proper toilets and sewage systems?

- 1) 32%
- 2) 12%
- 3) 42%

How is groundwater extracted from the water table below the ground?

- 1) By wells that reach down to the groundwater in the water table
- 2) The electrical conductivity of water pulls it up into the water pipes
- 3) When it rains, the groundwater rises closer to the surface

What can be done to improve drinking water in areas where pollution is high?

- 1) By planting trees with deep roots
- 2) It is already too late to do anything
- 3) By adding calcite to the soil

In Denmark, all people have access to clean drinking water. How many people have access to clean drinking water in Sub-Saharan Africa?

- 1) 58%
- 2) 75%
- 3) 97%

In which areas of a country is water typically the cleanest and most sanitary?

- 1) In cities, where there are advanced water sanitation facilities
- 2) In countryside, where there is less pollution and less trash
- 3) In smaller cities, where people do not live as closely to one another

In which part of the world do most people live without access to clean and safe drinking water?

- 1) Sub-Saharan Africa
- 2) South America
- 3) Europe

In which African country does most of the population have access to clean drinking water?

- 1) Tunisia
- 2) Somalia
- 3) South Africa

In which area of the world have we, in recent history, seen the greatest increase of people with access to better drinking water?

- 1) East Asia
- 2) Latin America
- 3) Middle East

In which of the following three regions do most people have access to proper toilets and sewage systems?

- 1) Latin America and the Caribbean
- 2) Asia
- 3) Africa

Along which river does most of Egypt's population live?

- 1) Nile
- 2) Danube
- 3) Ganges

There are many places around the world where people are in acute need of water. How long can a human live without drinking any water?

- 1) About 7 days
- 2) About a day
- 3) About 5 days

Much of the world's water exists as ice in the Arctic and Antarctic regions and mountainous areas. How much sea level rise would we see if all of that ice melted?

- 1) About 65 meters
- 2) About 5 meters
- 3) About 35 meters

How many healthcare facilities worldwide do not have soap or water or alcohol-based handrubs?

- 1) Two in five
- 2) One in five
- 3) Four in five

Saltwater contains 10 times more salt than freshwater. From where do you get saltwater?

- 1) From the ocean
- 2) From lakes and the groundwater
- 3) From rainwater

How has global access to improved water sources changed since 2000?

- 1) More people have gotten access to improved water sources
- 2) Fewer people have gotten access to improved water sources
- 3) Nothing has changed

What proportion of the world's population did not have access to improved sanitation in 2019?

- 1) One-third
- 2) Half
- 3) Less than half

90% of which type of water is led directly into the world's rivers and oceans without first being cleaned and neutralized?

- 1) Wastewater from sewage
- 2) Chlorine water from public pools
- 3) Rainwater from the drain

The UN has a "World Toilet Day". Why?

- 1) To spread awareness about billions of people who live without proper toilet facilities**
- 2) To celebrate the invention of the modern-day flush toilet, invented in 1596**
- 3) To remind everyone of proper hygiene and sanitary practices in the bathroom**

1)

2)

3)

Why is geothermal energy a very used resource of energy in Iceland?

- 1) Because there is a huge amount of thermal water in Iceland
- 2) Because there are many volcanic places in Iceland**
- 3) The country is one of the richest in the world

Which country can brag about having reached 100% of renewable energy in its energy production?

- 1) Finland
- 2) Iceland**
- 3) Latvia

Who was the first producer of hydroelectricity in Europe?

- 1) Finland
- 2) France**
- 3) Poland

What was the percentage of renewable energy consumed in the European Union in 2018?

- 1) About 39%
- 2) About 19%**
- 3) About 69%

Where is the biggest solar power plant in the world?

- 1) Sahara desert
- 2) Tengger desert**
- 3) Mojave desert

Where is the most appropriate place to set up wind energy farms?

- 1) In the heart of a forest
- 2) On an open plain**
- 3) In the centre of big cities

What country has the largest deficit in access to clean cooking fuels?

- 1) Madagascar
- 2) Ethiopia**
- 3) Niger

All solar energy that hits the surface of the Earth per hour will be the same as what all countries in the world use in...

- 1) One week
- 2) One year**
- 3) One month

What percentage of the global population still lacks access to modern electricity?

- 1) 5%
- 2) 13%**
- 3) 23%

7 AFFORDABLE AND CLEAN ENERGY

Affordable and reliable energy is essential for health facilities. How many health facilities were not electrified in 2018?

- 1) 1 in 3
- 2) 1 in 4**
- 3) 1 in 5

7 AFFORDABLE AND CLEAN ENERGY

According to the World Health Organization, how many people die of air pollution every year?

- 1) 5 million
- 2) 7 million**
- 3) 10 million

7 AFFORDABLE AND CLEAN ENERGY

How much of Uganda's population has access to electricity?

- 1) 47%
- 2) 27%**
- 3) 67%

7 AFFORDABLE AND CLEAN ENERGY

What was the good news regarding renewable energy in Europe in 2020?

- 1) Less nuclear powerplants were built
- 2) More renewable than fossil energy was produced**
- 3) The number of solar panels increased

7 AFFORDABLE AND CLEAN ENERGY

Which of these European countries makes the most use of electric vehicles?

- 1) Spain
- 2) Norway**
- 3) France

7 AFFORDABLE AND CLEAN ENERGY

7% of the world's electricity is produced from hydro power. Which force is used in the process of harnessing electricity from hydro power?

- 1) Centrifugal force
- 2) The force of gravity**
- 3) Electromagnetic force

7 AFFORDABLE AND CLEAN ENERGY

What percentage of global greenhouse gas emissions does energy represent?

- 1) 40%
- 2) 60%**
- 3) 20%

7 AFFORDABLE AND CLEAN ENERGY

How much of the world's total energy consumption is attributable to the four countries of China, the USA, India, and Russia?

- 1) About 25%
- 2) About 50%**
- 3) About 35%

7 AFFORDABLE AND CLEAN ENERGY

You cannot produce clean energy using...

- 1) The sun
- 2) Coal**
- 3) Water and waves

"Energy saving" means that...

- 1) For example, a lamp that gives off a dimmer light
- 2) Something is designed to make economical use of its energy supply**
- 3) The energy supply is cheap

What is "natural gas"?

- 1) A fuel extracted in a natural and environmentally friendly way
- 2) A fossil fuel extracted by fracking**
- 3) A waste product from wind energy production

Which of these is a renewable energy source?

- 1) Oil
- 2) Sunlight**
- 3) Gas

Which industry uses the most oil?

- 1) The agricultural industry
- 2) The transportation industry**
- 3) The fashion industry

If all the people in the world consumed and used as many resources as an average citizen of Denmark, how many Earths worth of resources would we then need?

- 1) 1 Earth
- 2) 4 Earths**
- 3) 2 Earths

Where in the world does the average citizen consume the most oil?

- 1) Saudi Arabia
- 2) USA**
- 3) China

Which country has the most oil reserves in the world?

- 1) Saudi Arabia
- 2) Venezuela**
- 3) Kuwait

By how much did the price of one barrel of oil increase during the oil crisis in 1973?

- 1) 50%
- 2) 500%**
- 3) 5%

How much CO2 do you emit, if you drive 300 km (186 miles) in an average petrol car?

- 1) About 7 kg (15 pounds) of CO2
- 2) About 70 kg (154 pounds) of CO2**
- 3) About 70 g (0.03 ounces) of CO2

What proportion of the world's population does not have access to electricity?

- 1) A tenth of the world's population
- 2) A fifth of the world's population**
- 3) A third of the world's population

How much of the world's energy consumption comes from renewable sources of energy, like wind power, solar cells, and hydro power?

- 1) 8%
- 2) 18%**
- 3) 28%

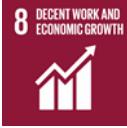

Why are clean and sustainable sources of energy important?

- 1) Because they are currently cheaper than traditional sources of energy
- 2) Because energy production and consumption contributes to global climate change**
- 3) Because they are newer and more modern and therefore better

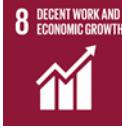

What do we celebrate on June 12?

- 1) World day for mental illness prevention
- 2) World day for biodiversity
- 3) World day against child labor**

Which continent has the highest rates of modern slavery?

- 1) Europe
- 2) Asia
- 3) Africa**

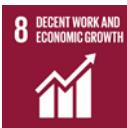

Which country has the highest rates of modern slavery in the European Union?

- 1) Czech Republic**
- 2) Spain
- 3) Poland

Which continent has the highest child labour rate?

- 1) Asia
- 2) South America
- 3) Africa**

Which of the following is one of the indicators of economic growth?

- 1) Low wages
- 2) High inflation
- 3) Strong employment numbers**

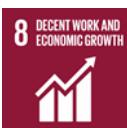

What is an element of decent work?

- 1) Long working days**
- 2) Flexibility with the wage
- 3) Social security**

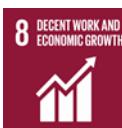

What country has the highest incidence of extreme and moderate working poverty?

- 1) Japan
- 2) Benin
- 3) Burundi**

By how much is the average income of men higher than that of women?

- 1) By 5%
- 2) By 9%
- 3) By 19%**

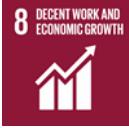

Which industry has the highest percentage of forced laborers?

- 1) Construction**
- 2) Agriculture and fishing
- 3) Domestic servitude**

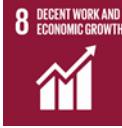

Which country was in 2017 the world's number one destination for international tourists?

- 1) USA
- 2) Dubai
- 3) France**

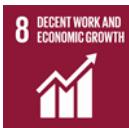

Which country has the shortest working hours?

- 1) Denmark
- 2) Ghana
- 3) Netherlands**

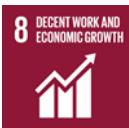

Which of the following countries has not explicitly prohibited harassment in the workplace?

- 1) Cote d'Ivoire
- 2) Cambodia
- 3) Russia**

Which of the following countries has the lowest unemployment rate in the world?

- 1) France
- 2) Germany
- 3) Qatar**

How many victims of modern slavery are children?

- 1) 1 in 7
- 2) 1 in 3
- 3) 1 in 4**

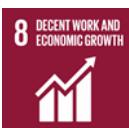

In April 2020, by how much did the COVID-19 lockdown reduce global greenhouse emissions?

- 1) 7%
- 2) 10%
- 3) 17%**

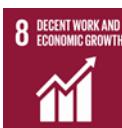

Which country has the largest economy in the world?

- 1) China
- 2) Germany
- 3) USA**

152 million children around the world are forced to work so much and so intensely that it affects their schooling and/or health. What percentage of these children are under the age of 11?

- 1) 8%
- 2) 28%
- 3) 48%**

Does slavery still take place in Europe?

- 1) No. In 1960, all countries of the world agreed to abolish slavery
- 2) Yes, but only in very few countries
- 3) Yes. It is estimated that 1.2 million people live as slaves in Europe**

**8 DECENT WORK AND ECONOMIC GROWTH**

What does "human trafficking" mean?

- 1) An advanced system that keeps track of where people move across the world
- 2) A transportation industry concerned with moving people around
- 3) Illegal transportation of people forced to work as e.g., sex workers**

**8 DECENT WORK AND ECONOMIC GROWTH**

Which of these countries has on average the most working hours per week?

- 1) South Korea
- 2) Germany
- 3) Mexico**

**8 DECENT WORK AND ECONOMIC GROWTH**

Which of the following continents has the highest number of forced labourers?

- 1) Latin America**
- 2) Africa
- 3) Asia**

**8 DECENT WORK AND ECONOMIC GROWTH**

Which African country has the biggest economy?

- 1) Egypt
- 2) South Africa
- 3) Nigeria**

**8 DECENT WORK AND ECONOMIC GROWTH**

Which European country has the biggest economy?

- 1) France
- 2) The United Kingdom
- 3) Germany**

**8 DECENT WORK AND ECONOMIC GROWTH**

Which Latin American country has the largest gross domestic product (GDP) per person?

- 1) Chile**
- 2) Columbia
- 3) Bahamas**

**8 DECENT WORK AND ECONOMIC GROWTH**

If the development continues at its current rate, how many years will it take before we achieve global equal pay between men and women?

- 1) 8 years
- 2) 28 years
- 3) 68 years**

**8 DECENT WORK AND ECONOMIC GROWTH**

How many of the 193 countries of the world have laws that prevent gender-based discrimination in employment processes?

- 1) 94 countries
- 2) 188 countries
- 3) 67 countries**

**8 DECENT WORK AND ECONOMIC GROWTH**

Today, how many children around the world perform some form of child labor?

- 1) 72 million**
- 2) 102 million
- 3) 152 million**

**8** DECENT WORK AND ECONOMIC GROWTH

How many people today live in modern slavery?

- 1) 25 million
- 2) 5 million
- 3) 40 million**

**8** DECENT WORK AND ECONOMIC GROWTH

What percentage of the world's adults currently have a bank account?

- 1) About 31%
- 2) About 72%
- 3) About 62%**

**8** DECENT WORK AND ECONOMIC GROWTH

In the year 2000, the number of child workers was 246 million globally. Today, this number has been...

- 1) ...reduced to nearly zero
- 2) ...doubled
- 3) ...reduced by a third**

**8** DECENT WORK AND ECONOMIC GROWTH

In 2017, 80.6% of all men of employment age were a part of the official global labor market. What percentage of the world's women were in formal employment that same year?

- 1) 84%
- 2) 14%
- 3) 54%**

**8** DECENT WORK AND ECONOMIC GROWTH

In how many countries do employees have the right to paid leave in the case of illness (paid sick leave)?

- 1) In 16 countries
- 2) In 66 countries
- 3) In 166 countries**

**8** DECENT WORK AND ECONOMIC GROWTH

Can you be living in poverty and still have a job?

- 1) No, the work has in itself a value that disqualifies you from being poor
- 2) No, because you work to earn money
- 3) Yes, it is more frequent than people think**

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

How many people worldwide still do not have access to internet?

- 1) 4 billion
- 2) 3 billion
- 3) 2 billion

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

Which sectors would benefit the most from the use of drones in the future?

- 1) Infrastructure, agriculture and transport
- 2) Media, tourism and art
- 3) Sport, health and economics

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

Complete the following sentence! A functioning and resilient infrastructure is the foundation of every successful...

- 1) Community
- 2) Friendship
- 3) Relationship

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

What was the European Green Capital in 2020?

- 1) Lisbon
- 2) Stockholm
- 3) Amsterdam

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

Why is infrastructure important?

- 1) It connects supply chains
- 2) It means lower taxes
- 3) It makes people travel more

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

What percentage of the world's population does NOT have any mobile coverage?

- 1) 4%
- 2) 10%
- 3) 1%

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

What percentage of agricultural products in high income countries undergo industrial processing?

- 1) 98%
- 2) 58%
- 3) 38%

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

Which city has been ranked the top city worldwide for sustainable transport in 2017?

- 1) Hong Kong
- 2) Zurich
- 3) Singapore

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

Which company invented the mobile phone?

- 1) Motorola
- 2) Apple
- 3) Nokia

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

Over 1.24 million people are killed annually in road traffic accidents. What percentage of these fatalities occur in developing countries?

- 1) 98%
- 2) 58%
- 3) 38%

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

It is a good idea for a country to invest a part of its gross domestic product (GDP) in science and technology. Which of these countries invests the most in relation to their total GDP?

- 1) South Korea
- 2) China
- 3) India

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

Which of the following statements is correct?

- 1) Cell phones (there are more cell phones than people in the world)
- 2) People (there are more people than cell phones in the world)
- 3) There are about as many cell phones as people in the world

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

What do most people in developing countries use their cell phone for?

- 1) Texting (SMS)
- 2) Calling
- 3) Maps

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

What does the word "infrastructure" mean?

- 1) Road networks, electric cables, railroads etc.
- 2) The physical and social environment at a workplace
- 3) A communication platform

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

What is a "pluviometer"?

- 1) A rain gauge
- 2) A snow gauge
- 3) A grass straw gauge

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

What is internet censorship?

- 1) When the authorities limit the total body of information that can be found on the internet
- 2) An agreement among the internet providers on how they are to share the competitive market
- 3) Another word for sharing your broadband connection

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

What does it mean for a business to be "sustainable"?

- 1) That it strains the environment as little as possible
- 2) That it makes enough profits to pay its employees
- 3) That it is sustained through external donations

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

What happens when a developing country receives support from a developed country to improve its infrastructure?

- 1) A greater opportunity within education and employment, which reduces poverty
- 2) A high risk that the developing country misuse the support

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

Which one of these cars is best for the environment?

- 1) An electric car**
- 2) A diesel car
- 3) A petrol car

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

Which one of these methods of transportation pollutes the most when it comes to CO2 emissions?

- 1) Transportation by plane**
- 2) Transportation by ship
- 3) Transportation by truck

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

Which of these countries has the world's largest railroad network?

- 1) USA**
- 2) China
- 3) Russia

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

If you combined all of the world's railroads into one, how many times could it reach around the Earth?

- 1) 29 times**
- 2) 19 times
- 3) 9 times

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

Which method of transportation is mostly used for shipping of goods?

- 1) Transportation by ship**
- 2) Transportation by truck
- 3) Transportation by plane

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

How much of Kenya's total population was using a cell phone in 2017?

- 1) 87%**
- 2) 57%
- 3) 27%

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

How many air passengers are there approximately per day worldwide?

- 1) 2.7 million air passengers**
- 2) 1 million air passengers
- 3) 500,000 air passengers

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

The EU has 446 million inhabitants. How many motor vehicles are there on the roads in the EU?

- 1) 313 million**
- 2) 221 million
- 3) 100 million

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

How much of the world's total population uses the internet?

- 1) About 60%**
- 2) About 40%
- 3) About 80%

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

How many of the EU-27 households had internet access in 2019?

- 1) Almost 90%**
- 2) Almost 70%
- 3) Almost 50%

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

How much of the world's total population had a smartphone in 2020?

- 1) Nearly half**
- 2) Nearly everybody
- 3) A third

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

Why does the UN's World Food Program (WFP) work on improving the infrastructure in developing countries?

- 1) Because otherwise it may hinder to distribute emergency aid**
- 2) Because cars get worn down and damaged from the unkept dirt roads
- 3) It helps the locals to socially connect with friends and family

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

In which year was the first cell phone text message (SMS) sent?

- 1) 1992**
- 2) 1981
- 3) 2003

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

In which decade was the world's first cellular network opened?

- 1) The 1980s**
- 2) The 1930s
- 3) The 00s

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

The idea of the internet was developed in the 1960s. Who was behind the invention and development of what we today call the internet?

- 1) The American military**
- 2) The Russian KGB
- 3) The Iranian government

**9** INDUSTRY, INNOVATION  
AND INFRASTRUCTURE

In the Zanzibar region of Tanzania, cell phones help improve the health of its population. How?

- 1) Pregnant women can access medical assistance via a cell phone**
- 2) A health app can tell how to avoid diseases
- 3) A health hotline gives health-related advice

Who was the world's largest donor of Official Development Assistance in 2019?

- 1) China
- 2) USA
- 3) The European Union**

Is SDG 10 only aimed at eliminating inequality between countries?

- 1) No, also in developing countries
- 2) Yes, of course
- 3) No, also within all countries**

What is one of the steps that countries should take to reduce inequality and meet the SDG 10 targets?

- 1) Decrease commerce with developed countries
- 2) Pay higher salaries globally
- 3) Facilitate migration and mobility**

What percentage of people with severe disabilities in low-income countries have access to disability benefits ?

- 1) 5%
- 2) 10%
- 3) 1%**

Which of the following countries has one of the worst levels of equality?

- 1) Hungary
- 2) India
- 3) South Africa**

Which of the following countries has the highest minimum wage?

- 1) USA
- 2) United Kingdom
- 3) Denmark**

Which region is recognised as having the highest levels of discrimination against workers?

- 1) North Africa
- 2) Northern Europe
- 3) The Gulf Region**

Which country is recognised as being easy for immigrants to integrate into?

- 1) France
- 2) Hungary
- 3) Canada**

The most disadvantaged groups in regard to their rights and equal treatment are:

- 1) Poor people
- 2) Immigrants
- 3) Stateless people**

Which of the following countries has the lowest average wages in the world?

- 1) Indonesia
- 2) India
- 3) Mauritania**

Which of the following countries has the lowest average wage in the European Union?

- 1) Latvia
- 2) Romania
- 3) Bulgaria**

What is a "quota refugee"?

- 1) A refugee with a certain amount of material and financial resources
- 2) A refugee with a specific age
- 3) A refugee who is relocated by the UN system to a UN member state**

How many asylum seekers got protected status in the EU in 2019?

- 1) Almost 200,000 persons
- 2) Almost 100,000 persons
- 3) Almost 300,000 persons**

The UN's Convention on the Rights of the Child describes the rights of any human child on Earth. How is the term "child" defined in this convention?

- 1) All humans under 12 years of age
- 2) All humans under 16 years of age
- 3) All humans under 18 years of age**

When people are treated differently based on their gender, skin color, beliefs, or other characteristics, it is called...

- 1) Inequality**
- 2) Injustice**
- 3) Discrimination**

What does it mean to be a "developing country"?

- 1) That the country is located south of the equator
- 2) That the country has no major cities, for example
- 3) That the country lacks development and progress within different areas**

From which of these sources do developing countries receive the most financial aid?

- 1) Generous philanthropists and lotto winners
- 2) Development aid
- 3) Transactions from people who send money back home**

Which of the following is the best way to reduce inequality?

- 1) Making sure that everyone has access to clean water**
- 2) Making sure that everyone has a cell phone**
- 3) Making sure that children have access to quality education**

Which of the following countries is the largest recipient of development aid?

- 1) Niger
- 2) Syria
- 3) Afghanistan**

In which areas is there the greatest chance of avoiding child death and maternal death during childbirth?

- 1) The type of area has no effect on the rate of child and maternal deaths
- 2) In rural areas
- 3) In urban areas**

How many people around the world experience water scarcity for at least one month every year?

- 1) 1 million
- 2) None
- 3) 2.7 million**

What percentage of all refugees in the world travel to a country in Europe or North America?

- 1) 49%
- 2) 86%
- 3) 14%**

What is the best way to prevent poverty?

- 1) By preventing immigration across borders
- 2) By lowering taxes for the wealthiest
- 3) To engage in international cooperation and fair trade agreements**

Which of these statements describes the world's most typical person?

- 1) He is American and he is 42 years old
- 2) She is Indian and she is 34 years old
- 3) He is Chinese and he is 28 years old**

In which part of the world has the average person been lifted out of poverty and become more equal in the past 50 years?

- 1) Middle East and North Africa
- 2) Latin America
- 3) Asia**

In which of the following countries do immigrants make up 88.4% of its total population?

- 1) Jordan
- 2) USA
- 3) United Arab Emirates**

In which of the following countries the wage gap between men and women is the smallest?

- 1) In Italy
- 2) In Denmark
- 3) In Romania**

People seeking refuge from conflict and/or natural disasters often flee to...

- 1) A country in Europe
- 2) A neighboring country
- 3) Another place within their own country**

Do the majority of the world's migrants come from poor countries?

- 1) There are about an equal amount coming from both rich and poor countries
- 2) Yes
- 3) No**

The world population is expected to reach 8.6 billion people by 2030. Where are we expecting to see the greatest population growth?

- 1) Europe**
- 2) East Asia
- 3) Africa**

What is "renewable energy"?

1) Energy from fuels found in nature such as coal, oil, and natural gas

**2) Energy from natural resources that are naturally replenished**

3) A form of energy that we cannot yet use, because it is brand new

Which of the following is a good strategy for us all to follow in order to achieve sustainable cities and communities?

1) Move to the countryside

**2) Recycle**

3) Use more private vehicles

What percentage of global GDP do cities generate?

1) 50%

**2) 80%**

3) 20%

What is the most urbanized country in the world?

1) USA

**2) Kuwait**

3) Germany

Which country in the world has the most overcrowded prisons?

1) Guatemala

**2) Republic of the Congo**

3) Philippines

What percentage of the worlds population lived in Asia in 2020?

1) 39%

**2) 59%**

3) 29%

What was the most polluted country in the world in 2019?

1) China

**2) Bangladesh**

3) India

What was the least polluted country in the world in 2019?

1) Sweden

**2) Bahamas**

3) Iceland

What is one of the European Union's programmes that aims at meeting the targets of SDG 11?

1) Europe on the move packages

**2) Horizon 2020**

3) Common Agricultural Policy

What does "urbanization" mean?

- 1) A growth in the number of population that is increasingly stressed and busy
- 2) A growth of population in cities due to a population shift from rural areas to urban areas**
- 3) A technological advancement of cities

Which city in the world has the biggest population?

- 1) Tokyo, Japan
- 2) Shanghai, China**
- 3) Mumbai, India

Which of the following events killed the most people in 2015?

- 1) Weaponized conflicts
- 2) Traffic accidents**
- 3) Animal encounters

Which part of the world is the most urbanized?

- 1) Asia
- 2) North America**
- 3) Middle East and North Africa

Which part of the world has the most people living in "slums"?

- 1) Africa
- 2) Asia**
- 3) Latin America

Which city has the highest population density in the world?

- 1) Tokyo, Japan
- 2) Dhaka, Bangladesh**
- 3) Shanghai, China

Which country has the lowest population density in the world?

- 1) Canada
- 2) Mongolia**
- 3) Australia

Which part of the world has experienced the greatest population growth since the year 1960?

- 1) Middle East
- 2) East Asia**
- 3) South Asia

In which country is the largest refugee camp located?

- 1) Jordan
- 2) Bangladesh**
- 3) Germany

How many people need to live in a city for it to be considered a "megacity"?

- 1) 5 million
- 2) 10 million**
- 3) 20 million

How many people in developed countries live in "slums"?

- 1) 60%
- 2) 30%**
- 3) 10%

How much of global CO2 emissions is emitted by cities?

- 1) 35%
- 2) 75%**
- 3) 55%

By how much has the world population grown since the year 1950?

- 1) By 102%
- 2) By 208%**
- 3) By 59%

How much of the Earth's surface is covered by cities?

- 1) An area about the size of Germany
- 2) An area about the size of India**
- 3) An area about the size of the USA

In percentage, how much of the Earth's total land area is covered by cities?

- 1) 13%
- 2) 3%**
- 3) 23%

How much of Monaco's total population lives in an urban area today?

- 1) 63%
- 2) 100%**
- 3) 88%

How much of the world's total population lives in cities today?

- 1) About 80%
- 2) About 50%**
- 3) About 10%

How much of the world's total population lives in Africa?

- 1) 27%
- 2) 17%**
- 3) 7%

**11 SUSTAINABLE CITIES  
AND COMMUNITIES**

By 2060, how many people do we expect to live in India as opposed to the 1.4 billion today?

- 1) About 2.1 billion, after which it will keep increasing
- 2) About 1.7 billion, after which it will decline**
- 3) About 1.5 billion, after which it will stagnate

**11 SUSTAINABLE CITIES  
AND COMMUNITIES**

Were there as many people living in cities as in the countryside in 2016?

- 1) No. The majority of people lived in rural areas in 2016
- 2) No. The majority of people lived in urban areas in 2016**
- 3) Yes. There was about an equal number of people living in urban and rural areas

When a company seems to have an environmentally friendly profile but does not have it in practice, it is called...

- 1) Greenclean
- 2) Ecowashing
- 3) Greenwashing**

How much of all the food that is produced is estimated to end up rotting in consumer and retail garbage cans?

- 1) One eighth
- 2) One fifth
- 3) One third**

According to the UN, if human activity continues at the current rate how many planets will we need by 2050?

- 1) 5 planets**
- 2) 2 planets
- 3) 3 planets**

How much clothing does an average consumer throw away each year?

- 1) about 2 kg
- 2) about 12 kg
- 3) about 32 kg**

How many people currently live without electricity?

- 1) more than 1 billion
- 2) More than 900 million
- 3) More than 800 million**

Which country recycles the most plastic?

- 1) South Korea**
- 2) Austria
- 3) Germany**

Which one of these products requires the most water to produce?

- 1) 1 kg of cheese
- 2) 1 kg of pork
- 3) 1 kg of beef**

Which one of these products requires the least water to produce pr kg?

- 1) Chicken
- 2) Beef
- 3) Rice**

Which of the following requires 100 litres of water to produce?

- 1) One kilo of plastic bottles
- 2) One pair of pants
- 3) One kilo of paper**

Which is the second-most polluting industry in the world?

- 1) The car industry
- 2) The coal industry
- 3) The textile and fashion industry**

Which of the following products requires the most water to produce?

- 1) A litre of milk
- 2) A kilo of potatoes
- 3) A normal t-shirt**

Which country was the first to ban plastic bags?

- 1) Iceland
- 2) Sweden
- 3) Bangladesh**

How much money would we save globally if everyone switched to using energy-efficient lighting?

- 1) Almost 914 million US dollars every year
- 2) Almost 51 billion US dollars every year
- 3) Almost 116 billion US dollars every year**

How many litres of water are required to produce 1 litres of cola (0.2 gallons)?

- 1) 20 litres of water (5 gallons)
- 2) 1 litres (0.2 gallons)
- 3) About 200 litres of water (52 gallons)**

How many litres of water are required to produce 1 kg of pork (2.2 pounds)?

- 1) 480 litres of water (127 gallons)
- 2) 48 litres of water (13 gallons)
- 3) 4,800 litres of water (1268 gallons)**

It takes 25 years for a cigarette butt to be broken down in nature. How many cigarettes are thrown on the ground each year?

- 1) 500 million cigarettes
- 2) 1 billion cigarettes
- 3) 2.5 billion cigarettes**

How much of Europe's plastic waste gets recycled?

- 1) 10%
- 2) 60%
- 3) 30%**

How many litres of water are required to produce 1 kg of beef (2.2 pounds)?

- 1) 150 litres
- 2) 1,500 litres
- 3) 15,000 litres**

How much of the world's total water consumption does the food production stand for?

- 1) 26% of the world's total water consumption
- 2) 56% of the world's total water consumption
- 3) 66% of the world's total water consumption**

What percentage of the world's agricultural land is maintained by irrigation?

- 1) 50%
- 2) 30%
- 3) 20%**

How is salt extracted from ocean water so that we can use it in our foods?

- 1) By applying pressure to the ocean water, causing a separation
- 2) By using a magnet to separate the salt from the water
- 3) By evaporating the water and having salts left over**

What is the best way to reduce the amount of plastic waste?

- 1) By always sorting out your trash and remembering to recycle
- 2) By getting rid of all the products you own that are made of plastic
- 3) By purchasing fewer products that are made of or packaged in plastic**

What is the best way to measure whether we are using our natural resources as efficiently as possible?

- 1) By measuring our collective greenhouse gas emissions
- 2) By calculating how much money the average person gains or loses
- 3) By measuring how many natural resources it takes to sustain an average person's lifestyle**

Today, about a third of all the food is being wasted. By how much should we reduce our food waste to make supply chains as efficient as we need them to be?

- 1) We need to reduce our food waste by 10%
- 2) We need to reduce our food waste by 30%
- 3) We need to reduce our food waste by 50%**

In Europe, 25 billion metric tons of plastic waste are produced every year. How much of that gets recycled?

- 1) About 40%
- 2) About 50%
- 3) About 30%**

For more than 9,500 years, we have used bricks to build houses. What are the bricks made of?

- 1) A type of gravel that is crushed
- 2) A type of rock that gets its red color from iron
- 3) Clay from the underground**

The production of food and drinkable items requires a lot of water. What is the water footprint of a standard cup of coffee?

- 1) 14 litres
- 2) 40 litres
- 3) 140 litres**

The production of food items requires a lot of water. How much water does it require to make a hamburger?

- 1) 25 litres
- 2) 250 litres
- 3) 2,500 litres**

What is the maximum temperature that the Earth can increase by, if we should still be able to stay safe on Earth?

- 1) 1.5 degrees**
- 2) 1 degree
- 3) 2 degrees

Which country announced in 2017 that it would abandon the Paris Agreement on climate change ( they joined again in 2021)?

- 1) USA**
- 2) China
- 3) Mexico

By 2100, how much do you estimate the global temperature can rise if we do not act immediately?

- 1) 3.2 °C**
- 2) 1.5 °C
- 3) 2°C

What international agreement was adopted in 2015 that aims to strengthen the global response to climate change?

- 1) The Paris Agreement**
- 2) Treaty of Lisbon
- 3) NAFTA

What does Circular Economy mean?

- 1) To reuse and recycle in production**
- 2) Trading with neighbours
- 3) Consumption of only local products

What is the name of the Swedish internationally known climate change activist?

- 1) Greta Thunberg**
- 2) Greta Garbo
- 3) Greta Gerwig

How can climate change be stopped/slowed more efficiently?

- 1) Self-education and changing habits**
- 2) Better laws
- 3) It cannot

What is the country that produces the most greenhouse emissions?

- 1) China**
- 2) USA
- 3) Japan

Which year was recorded as the second warmest year ever?

- 1) 2019**
- 2) 2017
- 3) 2011

We usually say that the world is made of four basic "elements". These are earth, air, fire, and...

- 1) Water
- 2) Metal
- 3) Wood

It is still possible for us to avoid two degrees of warming, if we all just...

- 1) Change our behavior and invest in sustainable technologies
- 2) Punish the developing countries that pollute the most with sanctions and fines
- 3) Collect all the trash that ends up in nature

Much of the CO<sub>2</sub> that we emit gets absorbed by the world's oceans, but how does this impact the pH-value of the water?

- 1) The water in the world's oceans is getting more acidic
- 2) The water in the world's oceans is getting more alkaline
- 3) CO<sub>2</sub> emissions have no impact on the pH-value of the world's oceans

The UN Climate Panel consists of experts who research and report on the causes and effects of climate change. When was this panel established?

- 1) In 1988
- 2) In 2009
- 3) In 1991

To be more sustainable, countries should develop and implement energy sources based on...

- 1) Sun, wind and hydro (water)
- 2) Natural gas
- 3) Coal and oil

The type of gas that is part of the Earth's atmosphere but is also emitted through human activities is called...

- 1) CO<sub>2</sub>
- 2) Natural gas
- 3) Butane gas

What is the definition of "climate"?

- 1) The general weather pattern measured across a minimum of a 30-year period
- 2) The amount of rainfall in a region measured across a minimum of a 5-year period
- 3) The weekly weather forecast

"Greenhouse effect" is a warming effect caused by...

- 1) An insulating layer of gasses in the atmosphere
- 2) A modern greenhouse and its ability to properly ripen vegetables
- 3) The industries that rely on greenhouses for food production

The global average temperature measured in 2017 was...

- 1) Warmer than ever before
- 2) Mildly warmer than usual
- 3) Mildly colder than usual

What is the "El Niño"?

**1) A climate phenomenon in the Pacific Ocean**

2) A dictator in Latin America

3) A tool for measuring the various warming effects of climate change

Which countries have the greatest responsibility for reducing CO<sub>2</sub> emissions?

**1) The rich and developed countries**

2) The least developed countries

3) All countries pollute a lot - they just pollute in different ways

What is a "glacier"?

**1) A very large body of thick and dense snow/ice that moves under its own weight**

2) An area for skiing in the French Alps

3) An iceberg that floats in the oceans around the poles

What is an "ice age"?

**1) A period in history covered in ice**

2) The period of time it takes for glaciers to form

3) The amount of time it takes you to eat an ice cream

What is the "Gulf Stream"?

**1) A warm ocean current in the Atlantic Ocean**

2) The name for the strong sun rays

3) An important river that feeds into the Persian Gulf

Who should be taking responsibility for making human society more sustainable?

**1) Everyone**

2) The politicians

3) The scientists

Which of the following statements is correct?

**1) Global warming will lead to stronger and more frequent storms**

2) Global warming is not happening because we still have cold winters

3) Global warming is fake news

By how much has the sea level risen during the 20th century?

**1) 17 cm**

2) 23 cm

3) 5 cm

Where was the 2015 climate agreement signed?

**1) Paris**

2) London

3) New York

Where around the world have we seen the greatest increase in CO<sub>2</sub> emissions per person?

- 1) Middle East
- 2) Southeast Asia
- 3) North America

How many UN member states have ratified the 2015 Paris Agreement as of 2020?

- 1) 190 out of 193 member states
- 2) 120 out of 193 member states
- 3) 90 out of 193 member states

By how much has the average global temperature increased since 1880?

- 1) By 0.8 °C
- 2) By 1 °C
- 3) By 0.2 °C

By how much do we expect the sea levels to rise within the next 100 years?

- 1) 1 meter (39.4 inches)
- 2) 10 centimeters (3.94 inches)
- 3) 20 centimeters (7.87 inches)

In which part of the world does it rain the most?

- 1) Areas around the equator
- 2) In the British Isles
- 3) The Amazon

During which month does West Africa receive the most rain?

- 1) July
- 2) December
- 3) October

The world's thickest ice sheet is in Antarctica. How thick is it?

- 1) 2.5 kilometers (1.55 miles)
- 2) 900 meters (0.56 miles)
- 3) 200 meters (0.12 miles)

Which country produces the most meat per capita?

- 1) Denmark
- 2) New Zealand
- 3) USA

- 1)
- 2)
- 3)

1)

2)

3)

The Ross Sea is...

- 1) The last intact marine ecosystem
- 2) The most salted sea in the world
- 3) A sea that will be gone by 2025

Which is the primary threat to the ocean's ecosystem?

- 1) Unsustainable fishing
- 2) Plastic
- 3) Dirty water

The Citarum River is the most polluted river in the world. In which country is it?

- 1) Indonesia
- 2) India
- 3) China

The Citarum River in Indonesia is the most polluted river in the world. What is one of its main source of pollution?

- 1) Textile industry
- 2) Automobile industry
- 3) Food industry

How many marine species are considered to be critically endangered (at an extremely high risk of extinction in the wild)?

- 1) 300
- 2) 200
- 3) 40

By which year is it estimated that plastic in the oceans will outweigh fish?

- 1) 2050
- 2) 2080
- 3) 2090

Which country launched the first fully-electric car ferry?

- 1) Norway
- 2) Canada
- 3) New Zealand

What is the name of the deepest known point in the oceans - located in the Mariana Trench?

- 1) Challenger Deep
- 2) Bermuda Triangle
- 3) Cape Horn

The oceans act as a natural filter. How much CO<sub>2</sub> do they absorb?

- 1) 30%
- 2) 10%
- 3) 50%

What activities are altering oceans in numerous ways?

- 1) Both
- 2) Unregulated development & pollution
- 3) Destructive fishing

How many people depend on coastal and marine biodiversity for their livelihoods?

- 1) 3+ billion
- 2) 1 billion
- 3) None

What is considered the world's largest ecosystem?

- 1) The oceans
- 2) The Forest system
- 3) The solar system

What percentage of the oceans is heavily affected by pollution?

- 1) 40%
- 2) 10%
- 3) 80%

How many plastic drinking bottles are purchased every minute?

- 1) 1 million
- 2) 50 million
- 3) 10 million

How many of sea turtles are lost each year to overharvesting and illegal trade?

- 1) Tens of thousands
- 2) None
- 3) Less than ten thousand

Do bees help the environment?

- 1) Yes. They are important pollinators that help plants grow
- 2) No. They just make honey
- 3) Yes, because they eat other insects that are harmful to the plants

Do we have an international agreement to improve the protection and sustainable use of the world's oceans?

- 1) Yes. 167 countries committed to such an agreement. It is called "UNCLOS"
- 2) No. The countries of the world cannot yet agree on it
- 3) Yes, but only 14 countries have committed to this agreement so far

What does "overfishing" mean?

- 1) Too many fish are caught, so the fish do not manage to replenish themselves
- 2) Use of bigger and bigger fishing boats
- 3) Fishing more than needed

What is the "Ganges"?

**1) A river in India and Bangladesh**

2) A river in China

3) The Chinese word for water pollution

What is the #1 cause of ocean pollution?

**1) Trash along beaches and within rivers**

2) Bathing and camping on the beach

3) Fishing, shipping, and general boat traffic

How much of the arable land is dedicated to feeding farm animals in the European Union?

**1) 68%**

2) 74%

3) 42%

If climate change and greenhouse gas emissions continue at the current rate, when will the world's coral reefs be gone?

**1) 2050**

2) 2080

3) 2100

What percentage of the global fish stocks are fully-fished (fully exploited)?

**1) Around 60%**

2) Around 40%

3) Around 20%

How many people worldwide depend on marine and coastal biodiversity for their livelihoods?

**1) Over 3 billion**

2) Over 100 million

3) About 1 billion

An area designated and effectively managed to protect marine ecosystems, processes, habitats, and species is called a...

**1) Marine Protected Area**

2) Forbidden Marine Area

3) Guarded Marine Area

How many of all existing marine species do we think we have identified so far?

**1) About 14%**

2) About 54%

3) About 84%

How much of the Earth's surface is covered by water?

**1) 71%**

2) 60%

3) 50%

What is extremely dangerous for turtles?

- 1) Plastic**
- 2) Tourists
- 3) Fishermen

Why is plastic so dangerous to turtles?

- 1) They mistake it for food**
- 2) They play with it and get hurt
- 3) It is not dangerous to them

- 1)**

- 3)

Which is the most biodiverse place on Earth?

- 1) The Amazon rainforest
- 2) The Russian tundra
- 3) The Mediterranean Sea

Which of the following animals is in serious danger of extinction due to Climate Change?

- 1) Polar Bears
- 2) Birds
- 3) Black Bears

Species that develop out of their natural habitats are called...

- 1) Invasive species
- 2) Endangered species
- 3) Natural species

Which of the following is a collapsed ecosystem?

- 1) The Aral Sea
- 2) Caribbean Coral Reefs
- 3) Amazon rainforest

What is biodiversity?

- 1) The variety and variability of life on Earth
- 2) The difference between species
- 3) Intra species genetic variation

What animal provides 20% of animal protein to about 3 billion people?

- 1) Fish
- 2) Cows
- 3) Chicken

What is the main driver of forest decline?

- 1) Agricultural expansion
- 2) Building football fields
- 3) Construction of shopping malls

Which country has the highest biodiversity?

- 1) Brazil
- 2) Mexico
- 3) Canada

Which animal was deemed a possible intermediary animal that transferred the novel coronavirus to humans in 2019?

- 1) Pangolin
- 2) Elephant
- 3) Lion

Which place is one of Earth's last refuge for jaguars and pink dolphins, and home to thousands of birds and butterflies?

- 1) The Amazon rainforest
- 2) The Teak Forest of Burma
- 3) The Cloud Forest of Singapore

The mass extinction of animal species taking place in the present day is primarily caused by...

- 1) Human activities
- 2) An increase in the number of predators
- 3) Inbreeding

What is "poaching"?

- 1) The illegal hunting of animals
- 2) A way to boil an egg
- 3) A specific promotion within military ranks

A community of living organisms and nonliving components that interacts as a system is called a...

- 1) Ecosystem
- 2) Ecolife
- 3) Organic life

What was the global human population growth in 2016?

- 1) 1.20%
- 2) 2.20%
- 3) 3.20%

Which of these items has the highest value per kilo?

- 1) Rhino horn, which is always harvested illegally
- 2) Beef, which is most often harvested legally
- 3) Gold, which is rarely harvested legally

Which state is the world's smallest measured by area?

- 1) Vatican
- 2) Tuvalu
- 3) San Marino

Which state is the world's largest measured by area?

- 1) Russia
- 2) Canada
- 3) Japan

Which continent has the most countries?

- 1) Africa
- 2) Europe
- 3) South America

Which country has the highest population density?

- 1) Monaco
- 2) Singapore
- 3) Japan

Which country had the highest population growth rate in 2020?

- 1) Niger
- 2) Indonesia
- 3) Mexico

If the world's population stood shoulder by shoulder, we would fill up the size of....

- 1) New York City
- 2) Bahrain
- 3) Ireland

Which of the following regions of the world is experiencing the highest population growth rate?

- 1) Sub-Saharan Africa
- 2) South Asia
- 3) Middle East

How many of the world's land-based plant and animal species live in forests?

- 1) 80%
- 2) 15%
- 3) 50%

How much food can an adult elephant eat in just a day?

- 1) 136 kg (300 pounds)
- 2) 58 kg (128 pounds)
- 3) 105 kg (231 pounds)

How do trees help prevent accidents, damage, and potential harm?

- 1) They help prevent desertification, floods, mudslides, etc.
- 2) They can be used to build houses
- 3) People can stand underneath them for shelter

When did the western black rhinoceros go extinct?

- 1) 2011
- 2) 1921
- 3) 1954

Which country has experienced the greatest population growth since the year 1950?

- 1) India
- 2) Indonesia
- 3) China

On which continent do most people live?

- 1) Asia
- 2) Africa
- 3) Latin America

Forests are important in our fight against climate change, because...

- 1) Trees absorb CO<sub>2</sub> and produce oxygen
- 2) Trees provide shelter during extreme weather
- 3) We need trees and wood to make products

- 1)
- 2)
- 3)

- 1)
- 2)
- 3)
